## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-3, 7-11, 19-23, 24, 26, drawn to An Error Correction Method using a Cubic Error Location Polynomial for Identifying Error Locations from Roots of the Cubic Error Location Polynomial.

Group II, claim(s) 4-6, 12-18, 25, drawn to An Error Correction Method using a Quadratic and a Quartic Error Location Polynomial for Identifying Error Locations from Roots of the Quadratic and the Quartic Error Location Polynomial.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I is directed to using roots of cubic error location polynomials to identify error locations and Group II is directed to using roots of quadratic and quartic error location polynomials to identify error locations.

A telephone call was made to Rick Anderson on 13 April 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
